Instructions for Downloading to Kindle Fire

Your library has eBooks which are compatible with the Kindle Fire. Download eBooks for free with your library card and get reading on the go! Follow these easy steps...

Public library books require an active Wi-Fi connection for wireless delivery to a Kindle device. Library books will not be delivered via your Kindle Fire's 4G connection. To turn Wi-Fi on, tap the "settings" icon in the upper right corner of the screen. Then tap "Wi-Fi." Your Kindle Fire will automatically detect nearby Wi-Fi networks. Connect to your preferred network. After you have successfully connected to a Wi-Fi network once, your Kindle Fire will automatically connect to it again when it detects a signal from that network.

If you want to download a library book for your Kindle Fire and you do not have an active Wi-Fi connection, you have two options. You may check out the eBook and send it to your device, then wait until the next time your Kindle device has an active Wi-Fi connection. At that time, the library eBook will be automatically downloaded to the device. Or, you may choose to download your eBook to your computer and load it to the Kindle via USB. Both Mac and Windows users can manage Kindle content through a USB connection.

Penguin Group (a publishing company) does not allow the transfer of its library Kindle eBooks via Wi-Fi. If you check out a Penguin eBook, you will see a notice that the eBook is available in "Kindle Book **USB Only**." This means that if you check out a Penguin eBook for Kindle, you will need to download it to your computer and load it to your Kindle via USB. Please note that you must use a computer, not your Kindle Fire's browser, to download a Kindle Book via USB.

Instructions for downloading library eBooks via both Wi-Fi and USB can be found in this document.
