- More details are available at [www.oki.com](http://www.oki.com)

**A 3-year warranty comes standard with this rugged and reliable forms printer**

This OKI™ impact printer combines versatile paper handling, fast throughput, and a space-saving footprint.

The OKI MICROLINE™ 186 has a way with tough conditions. This compact forms printer actually thrives in industrial and point-of-sale environments because it's built to meet the renowned OKI standards for quality and Team-Tough™ reliability. As proof, the ML 186 has a 20,000-hour MTBF rating, more than triple that of its closest competitor. Just put it to work and see for yourself how it delivers.

Small package, big performance. For its size and weight, the ML 186 is fast—375 cps in SuperSpeed™ Draft mode. It also combines efficiency with accuracy. It's packed with advanced, field-proven technology, including a patented OKI closed-loop optical sensor that accurately positions the printhead, ensuring precise characters even on the last page of a 5-page form.

The ML 186 sports our rich-and-sharp drive system for dependable throughput and longer wear, a sturdy 200-million-character printhead that's designed to deliver output speeds 25% faster than its predecessor, and a 16-bit DPU for even quicker processing.

Exceptional paper handling. The ML 186 can print virtually any continuous or sheet-fed form—including "difficult" media: its patented platen moves card stock and labels effortlessly, along with multi-part forms up to 10" wide. A short, straight paper path reduces the possibility of media jamming. Continuous forms and single sheet paper (e.g. letterhead) feed smoothly through the rear or top. And the optional Full Tractor Kit handles media from 2" to 5.2" wide.

Unlike most other industrial and POS printers, the ML 186 offers both bottom-feed and short-lead standard, so you can receive forms right at the perforation every time... which means the next form isn't wasted.

Set that and it's easy to use, too. Walk up to the ML 186 and select your character sets, form length, and line feed setting—right from the operator panel. It couldn't be easier.

Of course, if you need technical assistance, you can speak to a live expert—24/7/365—by calling 800-OKI-USA (800-654-3183).

For the next generation in forms-printing performance, specify the OKI ML 186.
